VENTANA

Control Your Home Through Augmented Reality
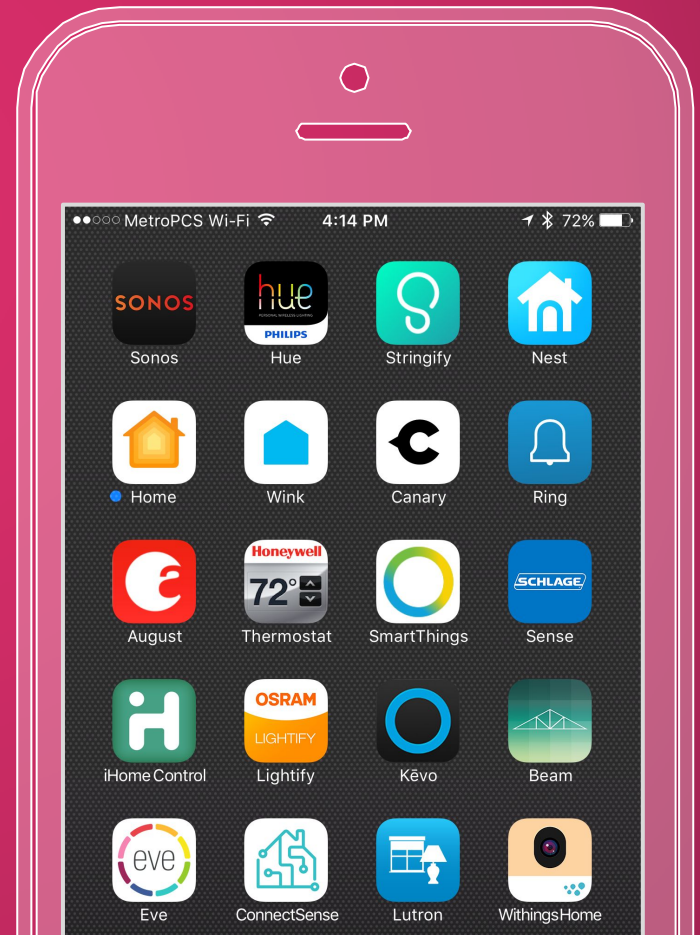

WHAT'S WRONG?

Smart Homes Mean

MORE CONTROLS

MORE APPS

MORE CONFUSION

SOLUTION

LET THE DEVICE SHOW YOU

See an Ideal User Interface

Touch it like it's really there

Limit context to the devices in sight

HOW?

We will use

HoloLens

Positional Markers

Device APIs

Contextual

Holographic
Interface

Blank Space

Data

Hub

Control

Component

Trigger

ID Broadcast

WRAP UP

What is it?

Ventana is an augmented reality platform for controlling devices in your home.

Who's it for?

Young professional techies who want an easier way to control the devices in their home.

Why is it better?

You don't need to remember everything about your home; Ventana shows you everything you need and presents the interface to control it

Where do we start?

ENTERTAINMENT   SPEAKERS   LIGHTS

VENTANA

Control Your Home Through Augmented Reality
